transportation topics

UNIFIED PLANNING WORK PROGRAM (UPWP)

The UPWP for Regional Transportation Planning provides a summary of the transportation and related air quality planning tasks conducted by the Metropolitan Planning Organization. The draft Fiscal Year 2008 and Fiscal Year 2009 UPWP will be presented as well as modifications to the Fiscal Year 2006 and Fiscal Year 2007 Work Program.

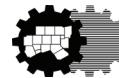

PROJECT AND PROGRAM FUNDING

CDA and NTTA Funding Initiative and Revenue Allocation to the Region
The first Comprehensive Development Agreement (CDA) project award for S.H. 121 was announced February 27. On May 7, the North Texas Tollway Authority (NTTA) Board of Directors announced their intent to submit a funding proposal for building S.H. 121 and other regional transportation projects. Staff will update the public on the CDA process and regional significance of the potential awards. In addition, citizens will be briefed on the upcoming funding initiative, in which the proceeds from the S.H. 121 project will be used to select and fund new transportation projects within the Dallas-Fort Worth area.

Quarterly Modifications to the Transportation Improvement Program (TIP)
The TIP is a staged, multi-year listing of surface transportation projects proposed for funding by federal, State, and local sources within the Dallas-Fort Worth Metropolitan Area. The TIP contains projects with committed funds in current and future fiscal years. Quarterly modifications to projects within the TIP help to maintain accurate project listings. Project listings are financially constrained to available resources. The latest set of quarterly project modifications will be presented for public review and comment.
